Career Profile

As a highly skilled and successful leader with seven years comprehensive experience in software development principles, I possess a wide range of knowledge and skills that allow me to contribute toward the success of projects I undertake. Throughout my career, I have been acknowledged as a solution-focused professional with the ability to design and develop innovative applications using advanced technologies. I have advanced proficiencies in Laravel(PHP), VueJs, Flutter, and excellent customer service skills. I also have a solid foundation in MySQL, PostgreSQL, MongoDB, and Node.JS. My attention to detail, organizational skills and strong communication have allowed me to lead software development teams and ensure the success of each project assigned to me.

Employment

Senior Mobile(Flutter) Developer
Oct 2022 - Present

Rentolo Corp, Nairobi

A digital market place and coordination platform that matches entities and organisations taking part in the heavy machinery & construction equipment industry: owners, construction companies, users, maintenance facilities and other relevant stakeholders in its network.

Key Responsibilities

- Lead development projects & ensure that they stay on schedule and produce high-quality code.
- Create and manage Continuous Integration/Continuous Deployment (CI/CD) pipelines that automate the building, testing, and deployment of software.
- Design the application architecture, including the application's data architecture, user interface, and user experience.
- Collaborate with cross-functional teams, including product managers, designers, and QA testers, to ensure that the application meets the requirements and standards.
- Mentor junior developers and providing guidance on best practices, code reviews, and problem-solving.
- Stay up-to-date with the latest technologies and trends in the mobile development industry, and recommend appropriate changes to the application architecture when necessary.
- Provide technical leadership to the team, including driving the adoption of best practices, tools, and frameworks.
