As a highly skilled and successful leader with seven years comprehensive experience in software development principles, I possess a wide range of knowledge and skills that will allow me to contribute toward the success of projects I undertake. Throughout my career, I have been acknowledged as a solution-focused professional with the ability to design and develop innovative applications using advanced technologies. I have advanced proficiencies in Laravel(PHP), VueJs, and Flutter, excellent customer service skills. I also have a solid foundation in MySQL, PostgreSQL, MongoDB, and Node.JS. My attention to detail, organizational skills and strong communication have allowed me to lead software development teams and ensure the success of each project assigned to me. I possess a strong background in conducting unit tests (PHPUnit/Pest/Cypress/Mockito), CI/CD (Jenkins/GithubActions) AWS/DigitalOcean, designing and developing APIs, assuring cross-platform optimization, and collaborating with visual designers to implement UI and UX elements as well as web design features. I am proficient in using various programming tools necessary for development of dynamic applications or programs, dashboards, and data management systems. I am experienced in managing cutting-edge technologies, educating and leading internal teams, and following emerging technologies.

I am well-versed in agile methodologies and have extensive knowledge of application architecture principals, database design and development procedures as well as the ability to optimize back-end applications for web systems. I have a track record of debugging codes and applications according to published standards and guidelines, complying with software engineering standards and providing program technical specifications.

Some of the projects that I have worked on and highlight my skills includes but are not limited to:

- Uhired
- Efiling
- Judiciary Advocate Management System (JAMS)

I am excited about the opportunity to bring my skills and experience to your company and contribute to the success of your team. I would welcome the opportunity to discuss how my qualifications align with your needs and the potential for a long-term career with your company.

With best regards,

George Outa
